

## Restricted CDL Report

In researching the Restricted CDL (Ag Restricted/Farm-Related) Report for the 50 states, we found that only 27 states offer the Seasonal License. The farm-related or seasonal licenses are only issued to farm related industries: farm retail outlets and suppliers, agrichemical businesses, custom harvesters and livestock feeders. The seasonal CDL license can only be issued for Class B or C vehicles.

**SPECIAL NOTE:** As of September 27, 2022, a new regulation was passed allowing for Restricted CDLs to be valid for up to 210 days in a calendar year, instead of 180 days. Affected states are responsible for updating their own legislation to reflect this update, so it is highly recommended that you verify with your state DMV the length of validity prior to applying for a Seasonal Ag Restricted CDL.

Standard Qualifications for a driver to have a seasonal CDL license according to the FMCSR are as follows:

1. Clean driving record - no loss of license (suspension, revocation, drug or alcohol violations, etc.) for any reason.
2. Must have held a motor vehicle license for one year.
3. One year of driving experience in any vehicle.
4. Medically qualified.
5. Included in a drug/alcohol testing program.
6. Provide employer consent to query the Clearinghouse.
7. Complete Driver Qualification File.

Standard Restrictions for a driver according to the FMCSR:

1. Allowed only within 150 mile radius of farm center.
2. Must be 18 years old. (Exception: 16 years old in Idaho)
3. Limited to operating Group B and C vehicles as described in 49 CFR 383.
4. May not operate a Class A vehicle.
5. No hazardous materials endorsements are allowed.
6. No placarded quantities of hazardous materials except for:
  - 1,000 gallons or less of diesel fuel;
  - Liquid fertilizers (including anhydrous ammonia) up to 3,000 gallons or less;
  - Solid fertilizer is not transported with organic substances.
  - (Exception: No placarded load in South Carolina)
